

DRCFS Digital Nepal Campaign

Event type: Educational Tour

Description

The DRCFS Digital Nepal Campaign is an educational tour program where all interested DRCFS members visit each of Nepal's seven provinces and share their knowledge of technology and digitalization with the students there through sessions.

Objective of the Event

- To teach students about various technologies (mostly programming)
- To expand the reach of DRCFS Community
- To establish good communication and relation among the members of DRCFS
- Enjoyment and entertainment
- Raising funds (If possible)

Game Plan

Before the tour starts, the team designs the syllabus to be taught in the session and shortlists at most 3 different schools or educational institutions from 7 provinces where the team is planning to conduct sessions.

The tour starts when all, if not, most of the members are free from their academic activities like school or college. The tour may take a time of around 20 days to a month. In this period, the team visits the selected schools on the same day, conducts the sessions and returns to their respective hotel room and leaves for their next destination the next day.

Benefits to the Members

- Establishment of connections
- Enjoyment and entertainment
- Increment of skills
- Development of Extra Curricular Activities

Benefits to DRCFS

- Increased reach
- Collection of funds (if possible)

Fund collection
